

SAYO OGUNFUNMINIYI-TAYO

Frontend Developer | Full Stack Developer

Lagos, Nigeria • +2348168869470 • sayowayne7@gmail.com • linkedin.com/in/sayo-ogunfunmini-yi-tayo-658964190 • github.com/sayoogunfunmini-yi

PROFESSIONAL SUMMARY

Frontend Developer and certified Full Stack Developer with hands-on experience building scalable, responsive web interfaces using JavaScript, TypeScript, React.js, and Node.js. Demonstrated ability to architect reusable component systems, integrate RESTful APIs, and deliver performant, cross-browser-compatible applications. Currently contributing as a backend developer on a full stack e-commerce platform in active team collaboration with UI/UX designers and frontend engineers. Proven full stack project portfolio on GitHub. Analytical problem-solver with a Physics background, strong research capability, and a record of translating complex requirements into clean, efficient code.

TECHNICAL SKILLS

- **Languages:** JavaScript (ES6+), TypeScript, HTML5, CSS3, SASS
- **Frameworks & Libraries:** React.js, Node.js, Express.js
- **Backend & Databases:** REST APIs, GraphQL, MongoDB, SQL
- **Tools & DevOps:** Git, GitHub, CI/CD pipelines, VS Code, Webpack, Vite
- **Concepts:** Responsive Design, Cross-Browser Compatibility, Component Architecture, Code Reviews
- **Testing:** Jest, Cypress

WORK EXPERIENCE

Frontend Developer & Full Stack Engineer | Tech Studio 2023 – Present

- Architected and developed scalable web interfaces using JavaScript, TypeScript, and React.js, delivering reusable component libraries that reduced UI development time across projects.
- Translated complex product requirements into clean, efficient frontend code with strict attention to cross-browser compatibility and performance optimization.
- Collaborated closely with UI/UX designers, product managers, and backend engineers in agile sprints to ship high-quality, user-focused solutions on schedule.
- Implemented best practices in frontend engineering including component-driven architecture, peer code reviews, and continuous integration workflows.
- Demonstrated full stack capability through multiple end-to-end projects available on GitHub, encompassing frontend, API design, and database integration.

Backend Developer (Team Project) | Full Stack E-Commerce Platform 2024 – Present

- Contributing as backend developer on a collaborative full stack e-commerce application, working alongside frontend engineers and UI/UX designers.
- Designing and implementing RESTful API endpoints and database schemas to support product catalogue, cart, and order management features.
- Optimizing backend performance and ensuring scalable architecture to support e-commerce workloads and concurrent user sessions.
- Participating in technical planning meetings, code reviews, and agile standups to align backend delivery with frontend and design requirements.

Teaching & Academic Coordinator | Braintrust International College, Kaduna 02/2018 – 01/2019

- Managed structured delivery of academic programs for 100+ students, demonstrating end-to-end project ownership and deadline-driven execution — directly transferable to sprint-based software delivery.
- Diagnosed performance gaps and redesigned lesson approaches iteratively, mirroring a developer's debug-and-optimize workflow.
- Collaborated cross-functionally with department leads to align curriculum outcomes, mirroring stakeholder collaboration in agile product teams.
- Applied data-driven assessment strategies to monitor and improve student outcomes, building structured feedback loops akin to CI/CD monitoring.

CERTIFICATIONS

Full Stack Developer Certification | Tech Studio

2023

Comprehensive certification covering frontend (React.js, JavaScript, TypeScript, HTML/CSS) and backend (Node.js, Express.js, REST APIs, databases) development. Validated through full stack project builds documented on GitHub.

KEY PROJECTS

Full Stack E-Commerce Application (In Progress) | Team Project — Backend Role 2024 – Present

- Backend architecture using Node.js and Express.js; REST API development for product, cart, and order modules.
- Collaborating with a cross-functional team of frontend developers and UI/UX designers.

Full Stack Portfolio Projects | GitHub: github.com/sayoogunfunmini 2023 – Present

- Multiple end-to-end web applications demonstrating JavaScript, TypeScript, React.js, Node.js, API integration, and responsive UI implementation.

EDUCATION

Postgraduate Diploma – Maritime Communications & Navigation | University of Lagos 02/2019 – 08/2023

- Research project: Port Cost Optimization Using Linear Programming Approach (4,500+ words).
- Educational field trip to Apapa Port, Lagos; practical exposure to operational systems and logistics.

Bachelor of Science – Physics | Obafemi Awolowo University, Ile-Ife 03/2011 – 09/2017

- Dissertation: Preparation and Characterization of Thin Films Using Copper-Zinc-Tin-Sulphide (4,500+ words).
- Executive committee member, Physics & Engineering Physics Student Association.
- First introduced to computer programming in second year; wrote and successfully executed initial code projects.

VOLUNTEERING & LEADERSHIP

Volunteer | Nigerian Maritime Administration and Safety Agency (NIMASA), Apapa 06/2023

- Contributed to operational workflow analysis and process optimization efforts.
- Supported data-driven planning and resource allocation initiatives.

Labour Prefect | Saint Anthony Catholic High School, Ilesha 03/2006 – 03/2009

- Led student coordination initiatives, demonstrating early leadership and organizational capability.

ADDITIONAL SKILLS

Problem-solving • Attention to Detail • Teamwork & Cross-functional Collaboration • Adaptability • Research & Analytical Thinking • Documentation & Reporting • Deadline Adherence
